-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Election/Restrictions

1. Because of the numerous amendments, a restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 31-39, 54-56 drawn to “...*display mode may be changed to by the display logic while the device is being actively used by a user*” classified in class 345, subclass 533.
- II. Claims 40-44, and 57, drawn to “...*display mode using the same size amount of a display.....*”, classified in class 345, subclass 698.
- III. Claims 45-47, 49-53, drawn to “...*display mode based on a characteristic of an application running on the processor*”, classified in class 345, subclass 600.
- IV. Claim 48, drawn to “...*only texture types of graphics information are displayed*”, classified in class 345, subclass 689.

2. The inventions are distinct, each from the other, because of the following reasons:

Inventions I, II, III, and IV are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility for using different access modes, such as “...*display mode may be changed to by the display logic while the device is being actively used by a user*”. Invention II has separate utility for adjusting display area such as “...*display mode using the same size amount of a display...*”. Invention III has separate utility for a system to modify displayed pixel such as “...*display mode based on a characteristic of an application running on the processor*”. Invention IV has separate utility for displaying alphanumeric values such as “...*only texture types of graphics information are displayed*”. See

MPEP § 806.05(d).

3. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, or Group III, or Group IV, restriction for examination purposes as indicated is proper.
